VIEWING & ORDERING

1-2 weeks after your photo session, you will receive a link to your private online gallery to view your beautiful photographs. You will be able to admire your gallery of approximately 30 final images (and their black and white version) which are expertly edited with high detail retouching.

All prints and products I offer are from professional labs where quality cannot be matched on the high street. I will guide you through choosing products to display in your home and creating an order that best suits you and your family.

If you need any further assistance with choosing your products, please let me know and you are welcome to come back to the studio so we can discuss it further.

Digital Images

Your beautiful final gallery is handpicked and retouched to high quality, professional standard. A full gallery consists of 20-25 final images.

My retouching style is kept relatively natural.

I love to leave in little details like milia on baby's nose and skin flakes.

However, if you prefer for these to be removed please let me know.

For environmental reasons, your digital images will be transferred to you as a digital download. USB sticks can be purchased as an add-on separately.
